### **2013 Price List Providing ON SITE & IN LAB CALIBRATIONS *HIGH QUALITY CALIBRATIONS TAILORED TO YOUR NEEDS.***

#### *Location Codes*

The columns to the right of each item identify relevant information about the instrument. The "location code" is to assist you in determining if we can perform the calibration on site or not.

1. Typically can be performed on site.
2. Typically must be performed at our lab in Mobile, Al.
3. Typically must be performed at our lab in Marshall, Tx.
4. Typically can be performed at either lab.

#### Color Codes

1. Black are items calibrated by either lab.
2. Red are items calibrated by Marshall, TX lab only.
3. Blue are items calibrated by Mobile, Al lab only.

Pricing is based on calibrations with before and after data.  
Customer requests for calibration variations are welcome and may change pricing.

Prices subject to change without notice

Prices do not include travel, freight or repair charges.

Prices are based on equipment being made readily available to ASI personnel.

Final pricing will be determined after inspection of equipment

# Electronics - Basic Guideline

Due to a wide variety of features, ranges and accuracies offered by manufacturer's in the electronics dicipline, this pricing is a "GUIDE ONLY"  
 Final pricing is based on actual manufacturer and model number. ALL electronic calibrations are performed by the Alabama Lab regardless of location  
 At the end of this price list is a electronics listing by manufacturer in alphabetical order.
